

## NEW FEATURES OF SIMULTRAIN 12.2 (JANUARY 2020)

The new features of SimulTrain®12.2 (January 2020) are improvements of the texts and introducing a new simulation **SimulTrain® Agile**. The text changes aim to make the content up to date. The new Agile scenario is available at [www.simultrain.swiss](http://www.simultrain.swiss) in English when you choose scenario **agile**. Scenario Agile Hybrid is still available.

### SimulTrain® Agile :

- The team members (trainees) play roles of Agile development team. They must choose 7 team members and the features to be done in the first sprint. The objective of 3 sprints is to collect 300 story points on the chosen features. The duration of sprint is 4 weeks in this simulation.

### Settings

- The recommended settings of the simulation are: Scenario: agile, Speed: Fast 3, Risk: Yes, Project Changes: Yes. Other features depend on your choice and they are less important.
